A. PRICING RATES AND TRANSPORTATION INFORMATION

For Pricing, Royalty Rates and Transportation Information for November 2008, refer to Attachments 1, 1A, 2, 2A, and 3. These attachments are also available in Excel format.

B. NOTICES

Royalty Liable Gas Used for Fuel (PURREC and PURDISP) System Enhancement in PRA

When there is a sale of gas or transfer of ownership within the royalty network the gas volume is subject to royalty. Currently where the gas is sold and is used for fuel, it must be reported as a “PURREC” (Purchased Receipt) by the facility operator receiving it. This auto creates a PURDISP at the seller’s facility.

For example: If a Gas Plant (GP) sells gas for fuel to a Battery (BT) each month, the reporting is:

1. The BT operator must report a PURREC.
2. This will auto populate a PURDISP at the GP.
3. The GP operator must then file a SAF/OAF for the PURDISP.

To enhance the controls to prevent fuel gas volumes being incorrectly reported, the department, in consultation with PRA, will be implementing a change in the reporting responsibility within PRA such that the reporting will be reversed – i.e. the Seller will be required to report PURDISP which would then auto create the PURREC for the Purchaser. This shift in responsibility and reporting has been scheduled for the April 2009 production period, in June 2009. Further updates will follow.

Capital Cost Allowance Filing - Expected AC2 Reports on the Registry

The Crown deducts allowances for costs incurred and paid in Alberta for compressing, gathering and processing its royalty share of gas and gas products. The Facility Cost Centre (FCC) operator, on record at year end, is responsible for filing the capital cost allowance data (AC2-V3) via the Registry.

The Expected AC2 Report identifies the FCC operator as of a specific date and is generated to aid FCC operators in verifying their status as well as effective date. In addition, it identifies whether a valid Capital Cost Allowance (AC2) was submitted for a production year.

The Expected AC2 Report is grouped by an Energy Resources Conservation Board (ERCB) Facility and related FCC. The report displays the following:

- Facility ID and Facility Name
- FCC ID and FCC Name
- “Y”(yes) and “N”(no) Indicators to identify whether or not the FCC is fully depreciated
- The FCC Operator Effective Date
- “Y”(yes) and “N”(no) Indicator to determine whether or not an AC2 was submitted for the production year

- All consolidated/amalgamated companies have been included within this report, where applicable.

The information in the report reflects the department's records as of the file preparation date and does not reflect submissions subsequently received and/or processed. Any submissions (AC1, AC2, Invoice Consolidation Concurrence – ICC1, etc) processed after the report date will not be shown. Please note that absence of a company name or FCC from these reports will not be an acceptable reason to waive a penalty once assessed.

The Expected AC2 Report is available in PDF, TXT and CSV formats and is generated weekly during the Gas Cost Allowance reporting season. Effective Monday February 2, 2009, and each Monday thereafter to Monday, May 11, 2009, with the exception of Mondays that are scheduled during invoice processing, the Expected AC2 reports will be available on the Registry. This report may be requested on demand, on a client basis, by contacting your respective Gas Royalty Client Services portfolio representative as identified in Section F of this bulletin or Will Wong at 780-415-0755.

If you are not the operator for the FCC identified on the report, please submit a Facility Cost Centre Set-Up/Change (AC1-V2) via the Registry identifying the change in operator and its effective date. An AC1 submission identifying an FCC change in operator is due on or before the last day of the month following the production month in which the change occurred. For information regarding the AC1-V2 submission, please refer to Chapter VI, Section 2 of the Alberta Natural Gas Royalty Guidelines, July 2006.

Please note that FCCs that are shut-in or terminated for an entire production year will not appear on the report. Operators of fully depreciated (zero remaining useful life) FCCs remain responsible for AC2-V3 submissions. Submissions are required to ensure the department has correctly identified Capital Cost Allowance allocations and Custom Processing Adjustment Factors for the FCC. AC2-V3 submissions will also prevent operating cost recaptures for royalty clients with ownership interest in an FCC.

AC2-V3 submissions are required to be filed on the Registry. An AC2-V3 can be entered online or by batch. If a system acceptable AC2-V3 submission is not received and processed by the filing deadline (April 30 of the year following the production year to which it relates) a penalty will be assessed. For information regarding the AC2-V3 submission, please refer to Chapter VI, Section 3, of the Alberta Natural Gas Royalty Guidelines, July 2006. Please contact The Petroleum Registry of Alberta, Service Desk, regarding access to or utilization of the registry at 1-800-992-1144.

Submission of Production Year 2008 Allowable Cost (AC) and Corporate Average Price Calculation (VA) Submissions

Royalty clients are advised that Allowable Cost submissions (AC1, AC2, AC3, AC4 and AC5) and Corporate Average Price calculation submissions (VA2 and VA3) for the 2008 production year are due on the following dates:

<i>Form Type</i>	<i>Due Date</i>	<i>Penalty</i>
AC1	March 02, 2009	-
AC4	March 31, 2009	\$200/Form/Year until received
VA2	April 15, 2009	\$1,000/One time only
VA3	April 15, 2009	\$1,000/One time only
AC2	April 30, 2009	\$100/Form/Month until received
AC3	May 15, 2009	-
AC5	May 15, 2009	\$100/Form/Month assessed when form is received

Please note that all allowable cost submissions (initial and amended filings for current and prior production years) by FCC operators are required to be completed on the Registry. Although use of the Registry to submit AC3 and AC5 data is mandatory for operators, it remains voluntary for non-operators. However, non-operators are strongly encouraged to use the Registry to submit and retrieve their AC3 and AC5 data. The business rules and submission method for VA2 and VA3 submissions remain the same with notification from the department informing clients that their submissions have been processed. Annual allowable cost submissions are processed nightly except during an invoice run cycle. New facility cost centre set-ups are processed within four hours of receipt if received in the morning with an overnight turnaround if received in the afternoon. Processing of new facility cost centre set-ups continue during an invoice run cycle. The Corporate Average Price submissions are processed as they are received.

The department encourages timely submissions to allow sufficient turnaround time for corrections. Non-operators are particularly encouraged to file their Corporate Average Price submissions timely by mail or direct delivery to the Calgary Information Centre. The font size on faxed forms must be 10 pt or greater and must not be bold. Penalties will apply where valid system acceptable submissions are not received by the filing deadline. Barring the department's responsibility, inability to submit annual cost submissions on the Registry and/or illegible script will not reverse a penalty once imposed.

Should you have any questions or require clarification regarding these matters, please contact Will Wong at 780-415-0755 or e-mail Will.Wong@gov.ab.ca.

2008 AC4 Filing - Allowable Operating Costs

The operator of a Facility Cost Centre (FCC) that is tied to a designated facility, or is a processing type FCC tied to a non-designated facility that is a sweet or sour gas plant, is required to report annual operating costs on the AC4 submission to the department, describing the allowable operating costs of the FCC for each year. Should an AC4 not be submitted, no operating costs for the FCC will be applied in the calculation of the Unit Operating Cost Rates (UOCR) for the following year.

The due date for the 2008 AC4-V2 is **March 31, 2009**. FCC operators are encouraged to submit their AC4-V2 submissions prior to the due date to allow for correction turnaround should rejections occur. Penalties will apply where valid system acceptable submissions are not received by the filing deadline. The 2008 AC4 reminder notices will be sent to operators, via the Registry, identifying those FCCs for which an AC4-V2 is required. AC4 reminder notices will be loaded on the Registry on the following dates:

- February 2, 2009
- February 13, 2009

- March 2, 2009
- March 9, 2009
- March 16, 2009
- March 31, 2009
- April 3, 2009

AC4 turnaround documents will not be produced as all corresponding data will be available on the Registry following processing of the data transfer files from the Mineral Revenue Information System (MRIS). AC4 rejection notices are also delivered to operators via the Registry.

Commencing the first week in March, a listing of outstanding AC4 forms will be published on the Natural Gas website's Royalty Related Information page under Royalty and Related Information Review. Please scroll to the updates near the bottom of the page and select **Outstanding AC4s for 2008** to open the most recent listing. Updates should be monitored closely in order to resubmit rejected submissions on or before March 31, 2009.

If you have any questions, please contact your respective Gas Royalty Client Services portfolio representative as identified in Section F of this bulletin or contact Will Wong at 780-415-0755 or e-mail Will.Wong@gov.ab.ca.

Custom Processing Allowance Fees Paid – Expected AC5 and Energy Adjusted Gas Equivalent Volume (EAGEV) Reports on the Registry

Royalty clients that have incurred and paid for compressing, gathering and/or processing gas and gas products on a fee-for service basis, in Alberta, are required to submit an AC5-V3 to the department by May 15 of the year following the production year to which it relates. This includes custom processing fees associated with freehold, purchased, and out-of-province volumes. The Expected AC5 Report provides a complete list of the Energy Resources Conservation Board (ERCB) facilities and related Facility Cost Centers (FCCs) where the operator has allocated custom user volumes to the royalty client in Part 5 (Custom Processing Adjustment Factor) of a Capital Cost Allowance AC2-V3 submission.

This report is generated to aid royalty clients in identifying the ERCB facilities and FCCs that **require** the royalty client to file an AC5-V3. The information in the report identifies the department's records as of the file preparation date and does not reflect submissions subsequently received and/or processed.

The Expected AC5 Report is grouped by ERCB Facility and related FCC. The report displays the following:

- FCC ID, FCC Name & FCC Type
- Operator ID and Name allocating custom user volumes
- Allocated Custom Processing (CP) volumes in 10^3m^3

In addition, as of the report generation date, there are "Y" (yes) and "N" (no) indicators for the previous and current production years that identify whether the:

- department has received a valid AC5-V3 submission for the royalty client and
- whether the ERCB facility has been reported on the AC5-V3 submission.

The EAGEV report is generated for all royalty clients and identifies volumetric allocations for volumes produced (SAF/OAF and RMF2) at ERCB facilities. This report should be used in conjunction with an Expected AC5 Report as a royalty client cannot file an AC5-V3 submission unless volumes have been reported at ERCB facilities identified on the EAGEV report. In addition, if a royalty client has custom user volumes which do not appear on the Expected AC5 Report, this indicates that the operator has not identified the client on the AC2-V3 submission. This inconsistency may indicate filing discrepancies that require an amendment by the facility operator.

If a system acceptable AC5-V3 submission is not received and processed by its filing deadline (May 15 of the year following the production year to which it relates) it is subject to penalty charges upon receipt. Please note that the absence of a company name or an FCC from these reports will not be an acceptable reason for a waiver of penalty. For information regarding the AC5-V3 submission, please refer to Chapter VI, Section 6 of the Alberta Natural Gas Royalty Guidelines, July 2006.

Both the Expected Custom Processing Fees Paid (AC5) report and the EAGEV report are available in PDF, TXT and CSV formats. Effective Friday, February 6, 2009 and each Friday thereafter to Friday, May 29, 2009, with the exception of Fridays that are scheduled during invoice processing, the Expected Custom Processing (AC5) report and the EAGEV report will be delivered on the Registry for retrieval. Operators of FCCs must utilize the Registry to retrieve these reports. The delivery of the EAGEV report on these specific dates is intended for the convenience of the client only, and is not intended to replace the normal delivery and/or availability of the report that is scheduled monthly. Non-FCC operators and other royalty clients that currently submit and receive hard documents will continue to receive the Expected AC5 report accompanied with an EAGEV report, by mail, on the same delivery schedules prescribed above.

In addition, both reports may be requested on demand, on a client basis, by contacting your respective Gas Royalty Client Services portfolio representative as identified in Section F of this bulletin or Will Wong at 780-415-0755 or email Will.Wong@gov.ab.ca.

Electronic filers are required to submit their Allowable Cost forms via the Registry. Contact the Petroleum Registry of Alberta Service Desk regarding access to or utilization of the Registry. To contact the Petroleum Registry of Alberta Service Desk call: 1-800-992-1144.

Please be reminded that the deadline for filing an AC5-V3, for the production year 2008, is **May 15, 2009**.

C. MONTHLY INFORMATION

November 2008 Royalty Due February 28

- **Royalty clients are to remit the total amount payable shown on the February 2009 Statement of Account by February 28, 2009.** If the amount payable includes accrued current period interest, the interest has only been accrued to the statement issue date. Clients must also include the additional interest that has accrued from the statement issue date to the date of payment, using the per diem amount provided.

- The February 2009 Statement of Account shows your amount payable as of the Statement issue date. It includes any outstanding balances from your previous statement, your November 2008 invoice amount and any applicable current period interest charges. It also identifies refunds resulting from overpayments.
- Current period interest will not be charged on current invoice charges for the production month of November 2008 if it is paid in full by February 28, 2009.
- Current period interest will accrue on any overdue charges commencing the first day after the due-date until it is paid in full.

Note: If the due date falls on a non-business day, the next business day will apply as the due date.

- Cheques are payable to the Minister of Finance, Province of Alberta.

December 2008 VA4 Due February 15

The VA4 forms for the production month of December 2008 are due in the department offices by February 15, 2009.

Note: If the due date falls on a non-business day, the next business day will apply as the due date for VA4 forms.

Registry Deadline Submissions

The Registry deadline submissions for SAF, OAF, and Volumetrics are posted in the Petroleum Registry of Alberta website "Reporting Calendars" under Bulletin Board.

Changes to this calendar will be posted on the Registry website home page in "Broadcast Messages."

Interest Rate January 2009

Alberta Energy's interest rate for January 2009 is 4.50%.

October Provisional Assessment Charge

The summary of Provisional Assessment Charges for all production periods in the October 2008 billing period was:

First Time Provisional Assessment	Reversals of Provisional Assessments	Net Provisional Assessment
\$5,186,715.90	(\$3,342,473.51)	\$1,844,242.39

October Penalty Charges

The penalty table below shows at the form level, the total penalty charges and reversals, for the October 2008 billing period:

FORM	Penalty Charges	Penalty Reversals	Net Penalty Charge for 2008/10
AC2	\$41,900	\$0	\$41,900
AC4	\$400	\$0	\$400
AC5	\$0	(\$8,900)	(\$8,900)
GR2	\$0	\$0	\$0
NGL1	\$0	\$0	\$0
VA2	\$0	\$0	\$0
VA3	\$0	\$0	\$0
VA4	\$400	\$0	\$400
Total	\$42,700	(\$8,900)	\$33,800

Gas Royalty Calculation Support

Gas Royalty Calculation staff will be available monthly to meet with clients who need assistance with royalty reporting. Royalty clients requiring assistance are encouraged to call Richard Stokl, Manager, Client Services (780-422-9258) or e-mail richard.stokl@gov.ab.ca two business days before the meeting date to arrange an appointment. The first quarter schedule for 2009 is as follows:

Where:

AMEC Place

Room 437, 801-6 Avenue SW

Calgary, Alberta

Phone: 403-297-8954

(Industry must go to the 3rd Floor Reception upon arrival to sign-in and be given a visitor tag)

When: (10 am to 3 pm)

January 29, 2009

February 26, 2009

March 26, 2009

D. INFRASTRUCTURE DATA CHANGES

Client ID Listing

The BA Identifiers Report is a directory of Business Associate (BA) names, codes, status (e.g. struck, active, amalgamated, etc.), status effective dates, and effective August 2004, includes Working Interest Owner (WIO) role start/end dates.

This report is also published daily on the Petroleum Registry website at:

<http://www.petroleumregistry.gov.ab.ca>

The department reminds Business Associates to review their WIO role to ensure the start and end dates are reflected correctly. If the BA does not have an active WIO role, the operators cannot allocate volumes to the BA for the relevant production periods through the SAF/OAF allocations.

- If a BA has a WIO role, then that BA can receive SAF/OAF allocations from the WIO role start date forward.
- If a BA has a WIO role with an end date, then they can only receive SAF/OAF allocations from the WIO role start date until the end date. Any SAF/OAF allocations after the end date will be rejected.
- If a BA does not have a WIO role start date, then that BA cannot receive SAF/OAF allocations.

Please contact Client Registry at 780-422-1395 if you have any questions regarding the information supplied on this listing.

Client Status Changes

Clients must ensure that all royalty documents are completed using only valid client names and IDs. It is critical that royalty clients use current legal client names and their appropriate IDs on all documents to ensure accurate royalty calculation and to prevent provisional assessment and penalties. Rejects will occur when invalid IDs are used.

If you require information regarding client names or IDs, please contact Client Registry at 780-422-1395.

Nova Tolls - Multiple Gas Reference Prices

Royalty information related to the implementation of the Factor Model negotiated with industry for determining Multiple Gas Valuation Prices is provided on the Natural Gas website's Royalty Related Information page under Facility Royalty Trigger Factors and Meter Station Ties.

E. REMINDERS

New and Revised Meter Station Factors

The department has published in Information Letter 2008-33, new and revised Meter Station Factors. Meter Station Factors for new meter stations are effective for the production periods November 2005 to September 2008. Meter Station Factors for those prescribed effective the October 2008 production period until otherwise changed are also identified in this Information Letter.

If you have any questions, please contact Bill Zanewick, Director Gas Royalty Valuation and Markets at 403-297-5465 or e-mail at bill.zanewick@gov.ab.ca.

Update - Statutory Requirement and Recalculation of 2004 Royalty

A production year becomes statute barred on December 31st, four years after the end of a production year. Once a year has become statute barred, calculation or recalculation of royalty does not occur on a monthly basis. Section 38 of the *Mines and Minerals Act* provides for recalculation of royalty.

Audits in Progress

Non-operator partners are advised that certain 2004 allowable costs, custom processing fees, capital costs and custom processing adjustment factor (CPAF), and volumetric reporting discrepancy audits are currently in progress.

However, completion of the audits and royalty recalculations and assessments, if required, will occur in 2009. For an initial list of the affected ERCB facilities, refer to Attachment 4.

Royalty clients are also reminded that amendments received by the department in the fourth year following the production year may be subject to audit. If the amendments are received late in the fourth year and insufficient time is available for the department to commence a review of the amendments prior to the end of the year, the department reserves the right to commence the audit at the beginning of the fifth year.

If you have any questions, please contact Kris Pretty of the Compliance & Assurance group at 403-297-8785.

Terminating RMF2s

The Department Records indicate that clients are not terminating RMF2s when:

1. A client that is an Assignor or Assignee on the RMF2 is amalgamated with another client and has passed the Amalgamated Established Date (AED).
2. A client that is an Assignor or Assignee on the RMF2 has terminated their Working Interest Owner (WIO) role.
3. A client has never had the WIO role.

The department now terminates RMF2s that allocate to clients that fall into these categories.

If there is more than one Assignee on the RMF2, the percentage allocated to the client without a WIO role, a terminated WIO role, or their AED has passed, would be passed back to the Assignor. In the case where there is only one Assignee, the RMF2 will be terminated.

If you require further information on these changes, please contact your respective Gas Royalty Client Services portfolio representative as identified in Section F of this bulletin.

F. POINTS OF CONTACT

Petroleum Registry of Alberta

The Petroleum Registry of Alberta Service Desk is the focal point for communications with the Registry regarding preparations for, access to, or utilization of the Registry. To contact the Petroleum Registry of Alberta Service Desk call: 1-800-992-1144.

Alberta Energy Internet

Prices, Royalty Rates, and Transportation Information are available on the Alberta Energy Internet address: www.energy.alberta.ca, from “Our Business”, navigate to “Natural Gas”, “About Natural Gas”, “Prices”, “Alberta Natural Gas Reference Price (ARP)”.

In addition, both the Gas Royalty Calculation Information Bulletins and Information Letters are also available under “Our Business”, navigate to “Natural Gas”, “Legislation, Guidelines & Policies”.

Gas Royalty Client Services

Gas Royalty Client Services is structured as a Business Associate client portfolio system, which assigns a given Business Associate to one of four Client Service teams. Listed below is the portfolio breakdown along with Client Service Team Leads and phone numbers. The portfolios are divided by company name and not by BA ID.

Example: If your company name is the “Gas Company” you would call C – G team at 780-644-1202.

Numbered companies, A, B & L	780-644-1201 GRCST1@gov.ab.ca	Chris Nixon
C – G	780-644-1202 GRCST2@gov.ab.ca	Jyoti Bhambhani
H – P (excluding L)	780-644-1203 GRCST3@gov.ab.ca	Chris Nixon
Q – Z	780-644-1204 GRCST4@gov.ab.ca	Jyoti Bhambhani

Gas Royalty Reception: 780-422-8727
 Fax: 780-427-3334 or 780-422-8732
 Alberta Toll Free: 780-310-0000

Hours of operation are 8:15 a.m. to 4:30 p.m. Voice messages left after 4:30 p.m. will be answered the next business day.

In situations where a company has just amalgamated or purchased another company, the general rule is to call the team that is responsible for the “Supra” business associate, or Royalty payer.

Below are some guidelines for clients who are unsure which Client Services Team to call regarding their questions.

1. **Amalgamation/consolidation** - Call the team responsible for the “Supra” business associate (Royalty Payer).
 i.e. ABC Oil and Gas amalgamates with Zed Exploration and Zed is the amalgamator (royalty payer). When calling Client Services regarding business for ABC Oil and Gas, you would call Team 4 (Q-Z) (780-644-1204) because Zed Exploration is now the Supra

business associate and royalty payer. This rule would apply even if you were calling regarding business that is prior to the acquisition or amalgamation.

2. **Asset Purchase** - Call the team responsible for your company.
i.e. 123 Gas purchases the assets of TSP Exploration, but not the company. When calling Client Services regarding business for 123 Gas, you would call Team 1 (# Co., A, B, & L) (780-644-1201) because you have only purchased assets.
3. **Consultants/service providers** - If you have a contract to provide production accounting services to a company, call the team responsible for your client's company.
i.e. Paul Snow Consulting Services enters into a contract with Duckback Oil and Gas and Olive Oil and Gas. Paul Snow would contact Team 2 (C-G) (780-644-1202) to discuss Duckback Oil business and Team 3 (H-P excluding L) (780-644-1203) to discuss Olive Oil and Gas business. At the time the contract is signed, Paul Snow would have had each company notify the appropriate team that he was authorized to access information for their company.
